Now, then, we not merely admit but proclaim that one reason for our desire that the blacks shall vote if based on the probability that they will generally vote with the party that has freed and entranchised them. In other words: We wish the blacks to vote for a reason exactly parallel with that which makes the World clamor for the enfranchisement of all the rebeis, and there is exactly the same baseness involved in the one wish as in the other. The Radical party wish to be confined in power. As long as they can get it by the free suffrages of an intelligent people, accustomed to scrutinize and canvass the claims and purposes of parties, they are fairly entitled to it. But whenever they are compelled to deprive hundreds of thousands of prescriptive freemen of their rights to vote, and to make new voters out of men who have never exercised that right, and whom no man of intelligence and the least particle of self-respect, will claim to be competent for its exernise, they came and the long of the seam fall in all new double foll goods.

The gist of the Avalanche's charge against Judge Hunter, which appeared in its local column, in the report of a case wherein the Judge is alleged to have taken insufficient bail, is that the Judge is a partizan and allows his feelings, as such, to control him on the bench. An action of libel was open to him as to any other individual; but this would throw the case late another court. A more summary method was to arrest the parties and try them before Hunter him.

FINLEY'S

CHURN DASHER. WHY, ONE OF THE GOT ONE OF THEM

YET? GOT ONE

CHURN DASHERS."

WHY DO YOU ASK ME THAT QUESTION, SIR ?

OF WHAT, SIR?

What's the article? What's the description? What's it do, Well, it is simply two errew-propeller wheels attached to the lower end of a staff or handle which is placed in the "old fashloned" wooden or tob chorn, and worked in the same manner precisely as the "old Danher", these two wheels revolve rapidly and in counter directions at every up and down movement of the "Dasher," completely disengaging and cutting the ream into the minutest particles; while at the same time by aid of the "air beds" in each di-

Well, sir, is the thing simple-very sample? Why, so very simple when seen, that not a word of explanation is necessary. Why " like-dy," "Aunt Dinah," or the eight year old child can both understand and use it, and couldn't for

Long enough; well, my friend, does it make GOOD BUTTER and QUICK? It does not only make good Butter, but about ONE FOURTH MORE to a given and eam, under like circumstances of quality and temperature, and in about ONE HALF THE TIME required by the use of the "old dasher" Am, however quite ready to confess that it will not make flutter nequice as the boasted "Five Minute" and other "inhining" Churras, nor would see have it so quiek, for the very plant and simple reason that the extraordinarily rapid operation of such Churras yields as the result a mess of SOFT LARDY, watercities as the result a mess of SOFT LARDY, watercities as the result a mess of SOFT LARDY, watercities and, first-and of those RICH, GRAINY, WARY, FIRM and LIVELY QUALITIES which constitute REAL

Well, sir, I have one of the "old fashloned " Churns-an old family relie of several gree rations past, and de I understand you that nothing more is required than one of the "FIN-LAY DARKERS !" Nothing she whatever to complete the SIMPLEST, CHEAPENT, and MOST SATISFAC-TORY CHURNING APPARATUS that the world has yet produced.
Well, friend, once more—excuse me, siz-right well persent, but a little suspicious. Can't help it. Are you mee lake is not one of the Yankee humburs—one of the "Machine Nulmees," or one of the "Hub of the Universe Hame" suit of tricks; so is hams that would, to seek upon bring a "orond guage" grin to the phis of the most f-stiffious epicure, -but with somewhat of

a change in the "programme and somery" when canting a sly peep as the cook after many fruitless effures to sice a breil or two. Ugh! such looks and such "tonguing" as all understand who have been "thus'y dond for."

Methinks I discover a mutual sympathy, a similarity of experience and a similar delecmination to avoid all humbugs, especially with the "Yankee" prefix. My friend, "FINLEY'S DASHER" IS NO HUMBUG not a bit of it, sir. Then "hume invention," and will upon its own true merits, win its way into every household in the land, North and South. The Bushec is open to competition, and for "common sense," every day practical use and household scon-may, we say to Yankes or saybody alse, SEAT IF IF YOU CAN.
